# Company Overview Presentation

---

# About Us

- **Quality Policy Statement** - Build the highest quality products through empowerment of our people and to exceed the needs and expectations of our customers.
- **Company Mission** - Our mission is to provide our customers with a full service solution from concept to completion.
- **Environment** – We try to do our part in helping the environment by encouraging recycling within the plant. As a company, we want to make sure that less waste goes into the landfill.
- **Community Involvement** - The money received for scrap steel is donated back to the charities we support.

---

# Performance

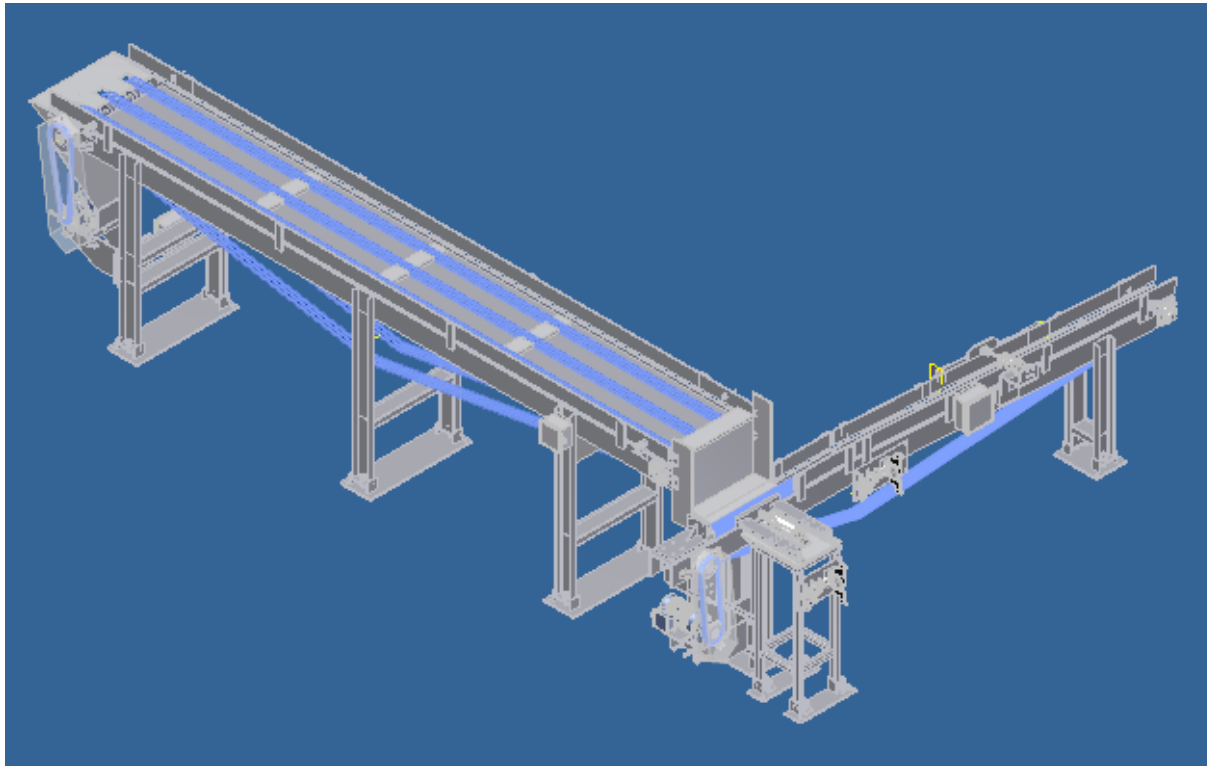

- Total Liability to Asset (percentage) = 10%
- Productivity = 86%
- On-time Delivery (Production) = 99%
- Customer Concerns = 150 PPM

# Facility

- Manufacturing Space 15k ft<sup>2</sup>
- Close proximity to crucial vendors: steel, fastener, mechanical and electrical systems, etc.
- Close to I-64 and I-75 interchange

# Engineering and Design

- ❑ Prototype
- ❑ Reverse Engineering
- ❑ AutoCAD Mechanical
- ❑ Autodesk Inventor
- ❑ Project Management

---

# Custom Manufacturing

- Machining
  - CNC Milling
  - CNC Turning
  - Grinding
- Stamping
  - Die Building
  - 65-150 Ton Capacity
- CNC Brake Bending
  - 130 Ton Capacity
- Fabrication
  - Mig & Tig Welding
  - Deburring and tumbling
  - Punching
  - Drive thru paint booth

# Custom Manufacturing: Machining

Our machining operation is capable of producing high quality CNC Turned and Milled parts. We excel in die manufactured components and production of Quality Control Gages. We have the capability to engrave parts per your specification and provide inspection data on finished parts.

# Custom Manufacturing: Stamping

Our die fabrication experience includes blanking, piercing, forming, and drawing. Our Tool & Die Makers can construct quality single and progressive dies. We are capable of stamping up to 150 tons and excel in low to moderate volume runs through cost effective setup.

# Custom Manufacturing: Fabrication

Our welding and fabrication operation includes plasma cutting, punching, forming, and bending. Our fabrication experience includes the construction of guardrails, handrails, safety fence, storage racks, carts, dollies, flow racks, platforms, stairs, ladders and cages, mezzanines, visual management boards, reusable containers, work tables, jigs, and fixtures.
